

Danielle Campbell

Independence, OR

Summary

Senior in Computer Science at Western Oregon University with a background in full-stack web development. Proven skills in customer service, financial operations, and leadership as demonstrated through roles in the service industry and as a student representative. Adept in cybersecurity with hands-on experience in incident response and code updates. Eager to apply my skills and knowledge to make impactful contributions.

Education

Western Oregon University, BS Computer Science

JUN 2024 (Expected) | Monmouth, OR

Major: Computer Science

Institutional GPA: 3.30

Coursework: Data Structures, Computer Organization, Algorithms, Programming Languages, Operating Systems and Networking, Software Languages and Tools, Software Design and Testing, Applied Discrete Mathematics, Ethical Hacking, Software Engineering

Work Experience

Western Oregon University | Cybersecurity Intern

(FEB 2021 – Present | Monmouth, OR)

- Assisted in monitoring the Security Information and Event Management (SIEM) system, promptly responding to security events, and contributing to the overall cybersecurity incident response efforts
- Played a role in enhancing the SIEM's functionality by updating and modifying code, showcasing a hands-on approach to improving cybersecurity infrastructure
- Executed various assigned tasks, demonstrating adaptability and a proactive approach in handling diverse responsibilities within the cybersecurity domain

Western Oregon University Board of Trustees | Student Trustee

(SEPT 2020 – Present | Monmouth, OR)

- Applied critical thinking skills in contributing to the Board's decision-making process, ensuring thoughtful choices that align with the best interests of the WOU community
- Demonstrated leadership skills by serving as a student representative on the Board of Trustees, practicing open-mindedness, advocating for underrepresented communities, and making tough decisions that benefit the university community.
- Played a vital role in the recruitment of a new university president, facilitated the approval of budgets, and contributed insights as a member of the Academic and Student Affairs Committee and the Diversity, Equity, Inclusion, and Accessibility Committee

Dutch Bros Coffee | Shift Lead

(JUN 2020 - MAR 2023 | Monmouth, OR)

- Skillfully prepared and served orders with precision, ensuring customer satisfaction
- Managed customer payments and tills, ensuring accuracy in financial transactions
- Provided outstanding customer service with a consistently positive attitude
- Led shifts by training new team members, providing guidance, and promptly addressing queries, contributing to a cohesive and well-trained staff

Skills & abilities

- Languages: C#, Java, C/C++, JavaScript, SQL
- Development Tools: Visual Studio Code, Git, Azure Data Studio, Docker
- Other Skills: Leadership, Customer Service, Critical Thinking, Communication

Projects

Full Stack Web Application (Final for Software Engineering I) | C#, .NET, Azure, Swagger, SQL

(DEC 2023)

- Developed a .NET Web Application tailored for efficient coffee shop order management. Implemented distinct functionalities, including a real-time chronological display of order quantities and prices on one page and an order management page enabling the marking of individual items as complete until the entire order is fulfilled.
- Gained experience in Test-Driven Development, utilizing living documentation, and proficiently deploying the application and its database on Azure hosting.
